OBJECTIVES OF THE EXHIBITION-FAIR

"Everything for Children" is the largest congress and exhibition B2B event in the field of children's goods industry in Turkmenistan, Central Asia and the CIS countries, uniting professionals who produce and purchase quality products. The main goals of the exhibition-fair:

1. Stimulating Economic Growth: Providing an opportunity for businesses to showcase and promote their products and services, promoting business growth.
2. Raising awareness of innovation: Introducing new technologies, products and services designed to improve the lives of children and their parents.
3. Create a platform for business cooperation: Support the interaction of local and international enterprises, stimulating the conclusion of transactions and contracts.
4. Formation of a positive image of the country: Presentation of Turkmenistan as an innovative and promising country in the field of goods and services for children.

MAIN CHARACTERISTICS

1. Scope of the event:

The exhibition-fair will cover all areas of goods and services for children, including toys, education, health, entertainment and additional services. The fair will feature both traditional and lesser-known brands that, in addition to quality, bring originality and ingenuity to the field of toys, games and children's products. It will also support startups and small local creators for the first time.

2. Participants:

Enterprises, organizations, professional and public associations, entrepreneurs, individuals of Turkmenistan, near and far abroad, working in the field of children's goods and services. The estimated number of participants in the exhibition-fair "Kids Expo: Everything for Children" is 150 local companies, 200 international companies, the indoor exhibition area is 2300 sq. m, open – 6030 sq. m.

3. Event format:

Combined format, including exhibition stands, master classes, lectures, entertainment events and business meetings.

The most important task of the exhibition-fair is to create conditions for active negotiations and promotion of new projects, developments and technologies to the market. The exhibition exposition is structured according to industry principles. Participants place their expositions in separate stands. Regions of Turkmenistan can display their expositions at joint stands. When creating exhibitions, it is proposed to make maximum use of existing full-scale exhibits, layouts, models, and modern audio and video equipment.

To enhance the attractive power of the exhibition-fair among potential participants and stimulate high attendance by specialists, it is necessary to organize special events on professional and economic issues with invitations to major experts who are authoritative in this field. Organize information support for the conference in the press - advertising in the professional press, widespread mailing and faxing of information and personal invitations.

4. Innovative solutions:

Focus on modern technologies, innovative products and services for children that contribute to their full development. In the strategic location of the exposition there will be a single exposition of the "zone of new products", where everything new and advanced will be located - industrial and technical products, consumer goods, technologies, services, as well as modern innovative developments, promising business proposals and plans will be presented. Thus, visitors will be able to familiarize themselves with new products at the very beginning of their route to the exhibition-fair.

The novelty of each exhibit will be confirmed by an exhibition diploma. The awarding of the diploma is carried out during the opening ceremony of the exhibition-fair in order to enhance the significance of the competition for exhibitors.

All exhibits presented at the exhibition-fair by participants can be offered for sale.
